HNTR 350 FEATURES

350 cc ENGINE

At the heart of the Hunter beats a fuel-injected, long-stroke 350cc J-engine that delivers a smoother ride, higher RPM and dollops of torque

COMFORT AND MANOUVREABILITY

17 inch front and rear wheels creates a smooth ride and easy handling, the low seat and narrow body make the Hunter the perfect bike for scything around through busy roads. The Hunter features adjustable preloads on the rear wheel shock absorbers, the rear absorbers are also quite firm and good for carrying a lot of weight

DISC BRAKES

Two-piston caliper at the front wheel, and a single at the rear, the rear brake being more powerful than the front, the Hunter is designed to ride through busy stop-and-go city traffic with slow speed control and accuracy, keeping you in control

ALLOY WHEELS & TUBELESS TYRES

The Hunter is the only Royal Enfield in production to feature really manoeuvrable tubeless tyres with striking cast alloy wheels.
